

## Aid for flood victims

The severe flooding that hit Bavaria and eastern Germany in June is over and life has returned to normal in many areas of Germany.

But for those living in the affected regions, the water's disappearance only exposed the extent of the damage caused by the flooding. In some cases, incredible amounts of water along the rivers completely destroyed the possessions and livelihood of families and companies within a few hours.

Even HA-BE did not escape the flooding unscathed. As a company headquartered in the immediate vicinity of Landshut, which was also impacted by the flooding, we are quite aware of our responsibility to the community. That is why we have decided to donate a total of €5,000 in equal shares to the most heavily affected regions in Bavaria: Landshut, Passau and Deggendorf.

With our donation, we hope to do our part to provide direct support to those who have suffered from the fateful event and to make it easier for them to get back on their feet.
