

## Company HA-BE Gehäusebau supports participation of people with disabilities

On January 12 2020, the HA-BE Junior Football Cup for the age groups U9 and U11 took place for the 8th time in the Eskara-Hall in Essenbach. The sporting event, which was attended by 20 junior teams with around 200 children, was organized by SC Landshut-Berg together with HA-BE Gehäusebau from Altheim, which is very keen to get children from the region excited about football. All participating teams were awarded with certificates, the winners received match balls or jerseys. Cups, however, were dispensed with in favour of charitable purposes. Consequently, the HA-BE company now handed over a donation of 1000 Euros to "Lebenshilfe Landshut" and thus actively supports the participation of disabled people in social life. Josef Deimer, Chairman of "Lebenshilfe Landshut", and Dr. Hannelore Omari, Managing Director, thanked Karl Heinz Brunner, Managing Director HA-BE Gehäusebau, Roland Ubrig, Head of the Toolmaking Department, as well as the organization team of the HA-BE Football Cup for their exemplary social commitment and valuable contribution.
